

Dr. Joe, one of the leading researchers of epigenetics, has released a new supplement that will surely be his greatest work in his 40-year career.

We present to you —

JoeGenEx

Origin of the name, "JoeGenEX"

JoeGenEx is a combination of the leading authority's first name: Joe. The word "gene" based on epigenetics: "gen." And the word "express," as health is how genes are expressed: "ex." As its name suggests, it is the ultimate supplement that is the epitome of Dr. Joe's 40 years of research.

3 combinations that work directly on your genes

1

THANKS AI's original blend of 9 natural plant extracts.

9 natural plant extracts

This is THANKS AI's original blend for pursuing the ultimate benefits.

Curcumin extract powder

Cherry blossom flower extract

Green tea extract

Guarana seed extract

Muscat juice

Red grape extract

Grapefruit juice

Fermented Chinese ginseng powder

Mangosteen extract

Joe Syn": a mix of 13 plant extracts and unprocessed natural foods.

Joe Syn

A blend of 13 plant extracts and unprocessed natural foods.

Papaya extract

Bilberry extract powder

Noni fruit powder

Peach juice

Tomato powder

Grapefruit juice

Pineapple juice

Strawberry juice

Apple juice

Cherry juice

Lyokan juice

Black currant juice

Fermented Chinese ginseng powder

3

"Joe MaF": 5 ingredients added during the manufacturing process.

Joe MaF

The 5 ingredients added during the manufacturing process are also of the highest quality.

Maltodextrin

Silica

Peach flavoring

Monk fruit

Orange flavoring

Dr. JOE Joe E. Guarnera

As a specialist in Biomechanics and Biology, he has been the supervisor of many Rehabilitation treatments for professional athletes and programs at medical facilities and fitness clubs.

Dr. Joe has had many lectures inside and outside the country, and made appearance on many international conferences, radio, and television.

Along with scientists and doctors around the world, he has developed many innovative products and technologies. Currently, he is studying Information transmission and Molecularly-targeted Therapy using natural compounds.

JoeGenEx

Epigenetic genetics

JoeGenEx focuses on the blueprint of life: genes.

Recent studies have discovered that the genes in our body contain a switch that is either on or off.

If the switch is on for these genes, it is possible to discover and suppress the progress of such conditions.

Epigenetics is the study of turning on various beneficial switches, and JoeGenEx is the brainchild of Dr. Joe, the foremost expert in the field.

Phytochemicals

The answer that Dr. Joe has reached after 40 years of research is "phytochemicals," the power of plants.

Phytochemicals, known as the "7th nutrient," are natural nutrients that have recently gained attention for being useful for preventing and treating diseases, beauty, and health maintenance. There are said to be 10,000 different kinds and a multitude of beneficial effects.

Although phytochemicals are quite beneficial, they cannot be produced in human bodies. They must be taken in from the food we eat. But nowadays, the amount of phytochemicals found in foods such as fruits and vegetables has greatly declined, and this is an era in which the intake can't be sufficient.

Furthermore, there is an infinite number of phytochemical combinations for acquiring the ideal benefits, and one would have to ingest an enormous amount.

But no need to worry, as Dr. Joe, after 40 years of research and decades of clinical studies, has discovered three combinations that will give you sure results.

- Treat high blood pressure/arteriosclerosis
- Beautify skin
- Protect and boost immune system for the brain and nerves
- Antioxidant/anti-inflammatory effects
- Improve eyesight • Decrease risk of cancer/allergies
- Reduce body fat • Maintain digestive functions
- Prevent Alzheimer's • Improve immune system
- Relieve constipation

In order to maximize the power of the ingredients in the JoeGenEx, we used the ample phytochemicals extracted from 100% natural foods that have been harvested during prime season.

We will deliver safe, reliable products that are created from high-quality natural ingredients, and have passed the rigorous tests of a GMP-certified factory.

4.6 billion years since the Earth was born... Humans and animals have lived off of plants, and plants have lived off of the Earth. Therefore, genes contain a massive amount of information.

The nutrients created by these plants have immense potential for providing us with health benefits.

By using the JoeGenEx that directly works on your genes to improve your quality of life and healthy life years, you can obtain a bright, prosperous future.
